

News Release

New Event Registration Product Available

Spokane WA, February 23rd, 2009- The CashLINQ Group is proud to announce the expansion of their “Q” suite with a new event registration product. EventQ is designed to assist ministries and non-profit organizations in creating event registrations online. This new product is considered an easy event builder that provides an economical solution for small to medium sized organizations. EventQ has the ability to do individual, group or bulk registrations, and has multiple fund options. EventQ also includes extensive reporting with both notification email and custom track options.

EventQ is part of the product suite “Q” which lays the ground work for additional solution options including donation processing, shopping cart, and back office conversion. The unique part of “Q” is that each organization’s “Q” will be specific to that organization, based on their needs and they will experience seamless reporting between all parts of “Q”

The CashLINQ Group offers comprehensive solutions to large and small non-profit organizations nationwide, providing them with the latest technology in electronic processing as well as a fully PCI compliant platform. CashLINQ’s services comprise: Credit/Debit card processing; Check Services – including EFT, Verification, and conversion. More information can be found at www.TheCashLINQGroup.com or by calling 800-811-7826.
